

# Seboradin Anti Dandruff Shampoo

## RECOMMENDATIONS:

Hair and scalp with dandruff. For women and men.

## ACTIVE INGREDIENTS:

The contains Piroctone Olamine and Thymol, which are responsible for its efficacy in the struggle against the fungus called Pityrosporum Ovale - the main cause of dandruff. Betaine moisturizes, soothes irritation and eliminates itching of the scalp. The natural prebiotic – inulin - allows to restore proper microflora of the scalp and protects it against harmful impact of external factors. Hair and the scalp are properly moisturized. The product successfully reduces symptoms of dandruff by up to 95%.

## HOW TO USE:

Apply the shampoo on wet hair, spread it and massage it into the scalp and hair. Rinse off after 3-5 minutes, repeat the action. For daily use. The shampoo can be used in dandruff prevention. It is recommended to use it with other carefully selected SEBORADIN products.
