

## **Lotion – treatment for lice and nits**

Seboradin MED Treatment for Lice and Nits lotion is a medicinal product to combat head lice.

It should be used to eradicate lice and as a preventive measure in case there is an increased risk of infestation. The bitter wood tree extract inhibits the process of shell forming and thus prevents lice formation. Apple cider vinegar protects the hair against the attachment of nits. Nimtree increases the scalp's resistance to parasites, protects against bites and acts as a deterrent.

The product has been tested microbiologically and dermatologically.

### **INSTRUCTIONS FOR USE:**

After washing with Seboradin MED Treatment for Lice and Nits shampoo, apply the lotion to scalp and hair from the roots to the ends. Do not rinse. After 30 minutes, carefully brush with a special comb. Can be used alone as a preventive measure. If there is a relapse of lice infestation, use Seboradin MED Treatment for Lice and Nits spray.

Volume: 100 ml
