

## **Shampoo – treatment for lice and nits**

Seboradin MED Treatment for Lice and Nits shampoo is a medicinal product to combat head lice. Its action is based on active substances of natural origin. The product has been tested microbiologically and dermatologically.

### **INSTRUCTIONS FOR USE:**

Apply to wet hair, spread evenly and massage into the scalp and hair. Leave on hair for 10 minutes. Rinse and repeat. 10 minutes after the second washing, rinse the shampoo and carefully brush hair with a special comb. The shampoo may be used preventively as well as to wash Seboradin MED Treatment for Lice and Nits spray.

In order to prevent a relapse in a period of increased exposure to infestation, regular use of Seboradin MED Treatment for Lice and Nits lotion is recommended. The shampoo enhances the effect of the lotion and if used after the spray, it cleans the scalp and hair.

Volume: 100 ml
